Essay 8

You are going to write this essay from the point of view of your successful future. Imagine that in the future you have a very successful life. Your purpose is to share with others what it means to live a successful life.

Your essay must satisfy the following requirements:

1. The length of your essay must be at least 600 words. [50pts].
2. Go around the circle of the elements of critical thinking and answer the following questions:
 - What is the purpose of your essay? [5pts]
 - What assumptions do you make? [5pts]
 - Explain the *concept* of success – what does it mean for you to have a successful life? Use SEE-I to describe success. [10pts]
 - In *information*, describe in detail your future life in present tense and explain why you consider that your life is successful. (In other words, since you write from the future, you should use present tense describing your life in your future – as if you already have it now). You can use SEE-I to enhance your delivery. [20pts]
 - Consider two alternative points of view: those people who agree that your life is successful, and people that might disagree with your notion of success. [5pts]
 - In conclusion, explain the consequences of your success on other people. [5pts]
