CALIFORNIA STATE POLYTECHNIC UNIVERSITY, POMONA
College of Engineering

ETT 101   Intro to ET
Spring 2013

Homework 1

1.	Access your engineering Lab account. The instructions on logging on are here:

	http://www.csupomona.edu/~engineering/current/student.htm

2.	PLEASE CHECK your campus email at least twice a day, or have it forwarded to your personal account. DO NOT send me e-mails from any account other than your CPP account – it often is bounced or put into my junk mail folder.

3.	Write a short (1-3 paragraphs) response to the following, save as Word document named as hw1LastFirst.doc and e-mail it to me: eyharris@csupomona.edu. For example, my name is Elena Harris, so the name of my hw1 file would be hw1HarrsElena.doc

	Write down your immediate, intermediate and long term goals (at least one in each category).
	For each goal, discuss:
	➢ Why do you want to achieve this goal?
	➢ What would it mean to the quality of your life if you are successful in accomplishing this goal?
	➢ How important is that goal for you?
	➢ How can you make it more important?
	➢ What things are you ready to give up for achieving this goal?

Due: 4/7/2013 by 9:00am.
Delivery: email your report as a Word document named hw1LastFirst.doc to
eyharris@csupomona.edu (use e-mail's subject ETT101 hw1)
Please note that late assignments will not receive any credit.
