## Assignment 2

Send only the source file (.py) to **marioh@cs.ucr.edu**. Remember to include your name as a docstring, in the beginning of the file!

### **Problem one:**

Make a simple graphical user interface for the address book application (Problem three of Assignment 1.) The user should be able to search the database and insert records into it. It would be useful if the user could select which database to open (File/Open menu.)
